**Subject:** Ecology number of cows for yakima County 318,647 total cows

Here's the proof. 318,647 cows in Yakima County. There are more cows in Yakima County than Yakima Regional Clean Air/industry has been saying. Therefore, more health risk, water consumption, manure, etc. I wonder why Ecology never informed the public that YRCA's numbers were vastly incorrect?

**Subject:** RE: Request for records

Good morning ,

Here are the records you requested for the Yakima Valley concerning CAFO's. At this time I will close this request unless I hear back from you by November 12, 2012.

Thank you,

Stephanie Smith  
Public Disclosure Coordinator  
**Department of Ecology**  
**Air Quality Program**

**To:** Smith, Stephanie (ECY)

**Subject:** Request for records

Stephanie,

I am writing to request all records regarding air quality monitoring or modelling from the Yakima Valley concerning federal HAPs, state TAPs or criteria pollutants released, or suspected of being released, from CAFO's. Please include in your records review all records from January 1, 2009 to present.

thank you.
